

Workshop: Bra drafting

- 14 hours (in 2 days)
- we give you all necessary tools and hardware
- at max. students
- drinks (water, tea, coffee) included
- sale and advice for products plus 10% discount (Patterns excluded)

Day 1: We begin with the correct measurement for your bra. We show you step by step what to do and give you necessary support for measuring. The drafting process is affected by the choice of fabric and lace you want to use, so we assist you with the correct selection and show you how to alter the patterns when sewing with other fabrics. Now it's time to draft your basic pattern with your own measurements. In the afternoon you'll sew your basic bra. Of course we are there to help you. Maybe we can show you some new techniques that help you to improve your sewing skills regarding lingerie.

The basic drafting is a bra with underwires and small center front piece. You can gladly do a wireless pattern in the workshop, but please inform us in advance at the registration so we are prepared!

Day 2: Day two is „Design-Day“. We show you how to make changes to your basic bra. Underbust band, different cup seams, etc. Your basic bra pattern is only a playground, where you can do all you can imagine. We have lots of outlines and examples (photos, sketches, real bras) to help you visualize what's possible and how to achieve it. At the end of day two you are perfectly prepared regarding bra drafting. You can draft bras with your own (but also other!) measurements. We gladly show you how to draft panties and thongs with your measurements on day 2 if you like.

Included:

- Workshop fee
- Necessary paper and tools
- Drinks
- Workshop manual for drafting (you can take it with you, of course!), sewing instructions you're your drafted patterns
- Price includes 19% VAT, without lodging and without catering (drinks during the workshop included)

For whom the workshop is suitable?

- For women with experience in sewing lingerie (and especially bras).

Number of participants: min. 2 women/ max. 5 women

Costs: 200,- EUR per student. You will also need material for sewing your patterns (can be brought with you or can be bought at the workshop).
